

Lessons from Other States:

Creating Care Delivery Systems that Recognize and Respond to Member Priorities and Circumstances

A MassHealth DSRIP TA Program “SWI Pop Up”

10:00^{am} – 12:30^{pm}

Please join us for a complimentary networking lunch with panelists 12:30^{pm} – 1:30^{pm}

Roxbury Innovation Center, Roxbury, MA

Please save the date for the next MassHealth DSRIP TA Program SWI Pop Up on **Friday, December 6th**. Join us for an in-depth conversation with representatives from the **Stanford School of Medicine (CA)**, **Whitman-Walker Health (DC)**, and **Community Health Innovations of Rhode Island (RI)**. These leaders will share innovative strategies for keeping individuals engaged in systems in care by lifting up what matters most to them. The discussion will also highlight ways for ensuring that the healthcare settings with which people interact are intentionally designed to address their unique circumstances. Participants will leave the session with key insights they can implement or explore further in the context of their own programs.

The Roxbury Innovation Center is conveniently located right off of route 93 at 2300 Washington Street, Roxbury, MA, steps from the Dudley Square Station, and a 15 minute walk from Roxbury Crossing stop on the MBTA Orange line.

Paid parking is available at the Renaissance Park Garage (835 Columbus Ave at the Ruggles stop on the MBTA Orange line) or Crosstown Center Garage (7 Melnea Cass Blvd near Boston Medical Center). Both are about a 15 minute walk from the Roxbury Innovation Center.

Please RSVP by November 29, 2019:
